

FLOOD RESILIENCE: Virtual Workshop for Water and Wastewater Utilities

in Alabama, Kentucky, Louisiana,
Mississippi, and Tennessee

Contact hours/CEUs/CECs for drinking water and wastewater operators may be available for participation (applications pending)

To encourage communities to build greater resilience the U.S. Environmental Protection Agency is providing a **FREE Flood Resilience: Virtual Workshop for Water and Wastewater Utilities**. This virtual workshop is designed for the water sector and will provide guidance and information for drinking water and wastewater utilities to enhance their ability to withstand a flooding event, minimize damage, and rapidly recover from disruptions to service.

This webinar is being conducted in coordination with:

- Alabama Department of Environment Management, Alabama Rural Water Association
- Kentucky Department for Environmental Protection
- Louisiana Department of Health, Louisiana Rural Water Association
- Mississippi State Department of Health, Mississippi Department of Environmental Quality, Mississippi Rural Water Association
- Tennessee Department of Environment and Conservation, Tennessee Water/Wastewater Agency Response Network

2.5-hour Virtual Workshop Two Dates Offered:

Tues., MAY 25, 2021 • 9:30AM – 12 PM CDT

Includes utility case study speakers from KY and TN, and will cover a TN-specific flood guide.

OR

Wed., MAY 26, 2021 • 9:30AM – 12 PM CDT

Utility case study speakers are to be determined.

TRAINING OBJECTIVES

- Learn how to use the U.S. EPA tool Flood Resilience: A Basic Guide for Water and Wastewater Utilities (Flood Resilience Guide)
- Walk through an example flood assessment using the Guide that also enables you to repeat the assessment at your facility
- Learn how to identify mitigation measures to effectively protect your utility from flooding
- Hear from utilities that have implemented flood mitigation measures

WHO SHOULD ATTEND?

Drinking water, wastewater and storm water utility staff and management involved with planning, operations, and risk management; water sector associations; technical assistance providers; and consultants.

TO REGISTER AND FOR MORE INFORMATION
