

CLEVELAND UTILITIES AUTHORITY Control Systems Tech. I

Cleveland Utilities Authority, a municipal utility providing electric, water, wastewater and fiber services to the Cleveland, Tennessee/Bradley County area is seeking a Control Systems Tech I to assist in implementation and maintenance of Water Division SCADA System and Maintenance Connection, our web-based computerized maintenance program (CMMS). Assisting on our Allen-Bradley-based control and remote Telemetry communications systems is expected as well.

ESSENTIAL FUNCTIONS:

- Assist in development and maintenance of the SCADA system for both water and wastewater treatment plants, the distribution system and collection system. Also has responsibilities for Maintenance Connection Across the company.
- Assists in design, develops, tests, and implements SCADA databases and user interface for plant operations.
- Assists in design, develop reports, graphs, charts, etc. for use by treatment plant personnel.
- Work with users to define and create procedures for Maintenance Connection.
- Must have broad aptitude for all technical aspects of computer systems including but not limited to system administration, programming, and networking. These skills will be utilized on our systems as well as assisting others in working on and maintaining our control and telemetry systems. Computer system knowledge will also include a basic ability to diagnose and repair desktop and server systems.
- Expected to learn new skills, particularly PLC programming, and deal with telemetry equipment to enable remote site communications.
- Detail oriented while being able to perform task(s) as part of a team or as an individual with little to no supervision.
- Expected to maintain current and obtain new skills by periodically receiving training and attending industry functions such as conferences. Expected to train in each plant as a plant operator to learn the plant and periodically work with maintenance personnel to learn their procedures while learning about various remote sites (tanks, boosters, lift stations, etc.)
- Other tasks as assigned by the Supervisor of Facilities Maintenance.

PERSONAL REQUIREMENTS:

- Bachelor's Degree (four-year college or technical school): Required. Field of Study: Computer Science or related discipline.
- Microsoft SQL Server, both administration and using T-SQL to deal with data; multiple programming languages/scripts and usage of associated IDEs to create code/projects, .NET Framework and Visual Studio experience preferred.
- Valid Tennessee Driver's License.
