Clinton, TN 37716**

Job Title: Wastewater Collection System Operator Trainee

This job is an entry level role that will participate in the operation and maintenance of the wastewater collection system.

Salary Range: \$18-\$22/hr

Minimum Requirements:

High School Diploma, GED or equivalent.

Ability to obtain a CDL class A within two years (ACWA will provide training)

Ability to complete ACWA provided training to become State certified in Wastewater Collections and/or other certifications

0-1 Years of wastewater collection experience at a small or medium size utility

Ability to be on-call and respond to call outs as needed to support the operation of the collection system

Ability to wear all required PPE and adhere to all policies

Ability to work in confined spaces

Ability to work in all weather conditions

Ability to work in environments and in close proximity to chemicals and other fluids requiring PPE utilization

Ability to physically perform requirements of the job involving working extended hours as needed

Ability to learn new technologies and operate software such as GIS, work order management software and other programs to assist in record keeping.

Ability to monitor SCADA software and respond to alerts after hours

Preferred Qualifications:

Trade School Diploma in Industrial Electronics/Electricity or Industrial Mechanics

Associates Degree in Business, Engineering or a Science Program

Work experience in a construction related job

This job description and the duties required are not limited to those listed. The role of the Wastewater Collection System Operator Trainee is a dynamic position that evolves based on the needs of the collection system and the requirements to serve the community at the required level of service and meet the requirements of the EPA and the Tennessee Department of Conservation.
